

Pure Destinations Tours and safaris is the ultimate Kenya safari company for those with a deep desire to discover Kenya and its pristine landscapes and amazing sounds of its savannah.

The company was established by indigenous Maasai people from Maasai Mara to support charity projects in Maasai land. Our company is fully supporting **I SEE MAASAI DEVELOPMENT INITIATIVE**. This is a community based organization (CBO) operating at Sekenani village in Maasai Mara. This charity organization, founded by the Managing director of Pure Destinations Tours and Safaris is involved in education of orphaned and poor Maasai children, provision of health services and clean drinking water, environment conservation as well as other activities aimed at improving the standard of living for the local Maasai community living in the dispersal areas of the Maasai Mara.

Pure Destinations Tours and Safaris is therefore a unique safari company fully involved in improving the welfare of the Maasai community which at the moment is facing numerous problems ranging from loss of land to game parks as well as loss of their cattle to persistent droughts.

Our company therefore exists to give back to communities value for allowing visitors to enjoy their heritage.
